

Do You Have an Adequate Business Continuity Plan?

A LIFELINE
For Your Business Data

Dramatically improve your **BACKUP & RECOVERY** with the following key benefits:

Online Backup Specialists: Outsource your backups to us and have the peace of mind that your data is being looked after by the experts. Should the worst happen we will help you retrieve your data securely and quickly

Business Continuity: Availability of data is a fundamental start to any business continuity plan. Online data backup allows you to protect your critical data securely so that you can concentrate on your key focus, your business.

Fully Automated: Our set and forget software means changing tapes is a thing of the past, choose what you want and when you want it backed up, all protected using the highest levels of encryption in our state of the art UK data centres.
